BY TRIBORAPH TO THE TRIBUTES.

WASHINGTON, Oct. 24.—Gen. Wood, Freedmen's Bureau Commissioner for Mississippi, reports, under date of Vieblesburg, Oct. 9, the operations of his Department for the month of September:

In the District of Brookhaven numerous complaints have

The poincy of leaving all safractions of the public peace and safety to the civil authorities has given increased confidence, as it is seen in the generally prompt and willing action and the growing faith of the State offices that they will be sopported in the performance of these duties. The resident elergymen of Vicksburg have taken acties measures in the matter of schools for the freedomen in that city and have opened one for children. The United Precisionshape measures in the matter of schools for the freedomen in that city and have opened one for children. The United Precisionshape measures in the matter of schools completion. Impressed with the besief that the action of the isolated charitable erganizations or societies remotetrom the field of action can accomplish but little among these ignorant thousands. Gen. Wood has sought the cosperation of leading citizens of the State in the cause of education. He has employed the Rev. Wm. K. Douglass of the Protestant Episcopal Church, and late Superintendent of Public Schools at Natchez, to traverse the State, address the people, and attempt to arouse public seatiment to the importance of educating freed people and of establishing schools. The fact that the act establishing the Eurean limits to two years implies the design of Congress to be that the Bureau should prepare the public mind of the several States lately in Rebellion to assume and administer the humans and necessary duties now performed by the Bureau Agente, and in sevening to interest the white population in the State in this movement of education, and urging them to take principal charge of this work, the Commission states he is simply conforming to the closing paragraph of section 12 of that Act.

ply conforming to the closing paragraph of section 12 of that Act.

The results of the harvest of crops de not support the prognession made in the early Spring. At that time we had very considerable take, but the heat and drouth of the Sommer has made the grain crop a failure. The most trustworthy opinious given predict that the harvest just made will not support the residents beyond the list of January. The army worm has made its appearance since the lat of August, and almost totally rained the cotton crop. These conjoint causes of destruction have worked fearful ruin. The production of cotton will not, on an average, repay the capital invested in its production. The number of rations issued for September were 11,925.

Several cases of infimous outrages on freedmen, by their employers are exported in the neighborhood of Meridian. It now being time for settlement with a number of those freedmen, the white employers fail to act up to their promises, and if the freedmen complain they are treated with powder and bail.

A SCHOOL-HOUSE BURNED AT STRVENSON, ALA.

BY TRIABRAPH TO THE VEINFUR.

NAMEVILLE, Oct. 24.—Intelligence was received to-day that the freedmen's school at Stevenson, Ala., was burned to the ground on Monday morning. It was erected under the auspices of the Pennsylvania Freedmen's Ald Society, the negroes themselves having contributed liberally toward its construction. The building was completed on Saturday, and was to have been formally opened by the Rev. Mr. Mitchell on the day on which it was burned. It was quite likely the work of some heartless secondrel, as the citizens of the town held a meeting afterward and passed resolutions denouncing the outrage.

THE INTEROCEANIC ROLD OF TEHUANTEPEC.

New-ORLEANS, Oct. 24.—Brownsville dates to the 19th have been received. Juarez is in Chihuahua, not yet having gone to Monterey. There is no truth in the report that Mejia had attacked Monterey; all was quiet in the city. Escebado still remains there. Trovino had gone toward San Luis Potosi with 2,000 men to look after Mejia, who was reported at the latter place invested by Liberals. Topia was en route to Matamoros with 1,000 meth.

ASTICIPATED ATTACK ON MATAMOROS BY CORTINA—
THE RIGHTS OF AMERICAN CITIZENS.

Your Matamoros correspondent sends me the following under date of Oct. By:

The anticipated attack on Matamoros by Cortina has not yet come off, though hourly expected for a week past. Cortina has assumement in an official communication to Col. Nedge wick that he phonely attack canalise, in accordance with a representation of the phonely attack canalise, in accordance with the report of the surreme to overnment.

Both parties are making energetic efforts for the coming

Business is almost entirely suspended here, most of the merehants are on the other side.

The gui boat Chemaco is still in the hands of the United States auf orities. Canales, Cortina and Escobedo have asked for her. Col. Sedgewick responds that he will await the lecision of superior authority.

Escobedo is still in Monterey. In a communication received at Brownville, dated Oct. 6, he writes: "Gen. Tevine has marched to the interior with 4,000 troops. All we hear pending is insignificant Matamores, which I think will be settled before twelve days, as I have 2,000 men in this place with which I intend to suppress the meeting there, and thus insure the tranquillity of Tamaulipas." He further states that the troops of Victoria and Tampico are in accord with him and will act in conjunction with him in his operations in the interior.

Information has just reached here that Gen. Topis, with 800 men, its escorting a conducta with \$300,000 from Monterey to Mier. The steamer Jerry Galvan has gone up the river to bring the money down upon its arrival. Then Tapis will immediately proceed to this city, drive out Canales, and assume the governorship by virtue of his comission from Juarez. He will doubtless act in conjunction with Cortins.

A correspondence in reference to the rights of American citizens has been going on for some days past between the commanders on the respective shores of the Rio Grande. It has terminated in an amicable adjustment of all questions.

ROBBERS ON THE RIO GRANDE.

NEW-ORLEANS, Oct. 24.—A band of robbers on the Rio Grande, about 50 in number, have been committing great outrages. They were pursued by companies of Rancheros and United States colored treops, and five of them have been killed. The gang is composed of Americans who were enlisted on the Liberal Mexican side, but who deserted after the quariels in Matamoros. The robbers are all well mounted, and are making their way toward San Antonio.

A private letter, received at Brownsville, announced a severe battle near Saltillo, resulting in the defeat of the Liberals under Naranjo and Martinez. This victory literally placed Saltillo in the hands of the Imperialists, who were duily expected in Monterey.

A long dispatch is said recently to have been received from Napoleon which had the effect of halting some French troops that were about embarking, and others were ordered to prepare for active service.

Confidence in Canales's ability to hold Matamoros was increasing. His forces were said to be 1,500 strong, most of whom were boys.

It is reported on good authority that Juagez directed the arrest of Canales and Himojova, and their trial by courtmartial.
